

Men want to succeed!

No-one sets out to lose. Christian men want to grow spiritually and move forward.

This workshop will examine the particular ways your church can grow men as disciples as part of your church community. Whether your Men's Ministry is just beginning or if it has been in existence for a number of years, our expert Ministry with Men Coaches will work individually with you, talk with you about the issues you are currently facing and assist you to develop customised solutions to bring your Men's Ministry up to the next level.
