LIVING IN GOD'S WORD

WARM UP

Every day we are confronted with all forms of the media including newspapers, radio, TV, DVDs, and films. The message is always about what is happening in the world and rarely about the Kingdom of God. Just as the saying is, "We are what we eat", it can also be, "We are what we read or hear".

BACKGROUND

Many of us have heard the saying, "Garbage in, garbage out." If we are reading, watching or listening to garbage in the form of scandal, gossip, pornography or news that does not have a solid foundation in truth, then our mind can be greatly influenced into wrong thinking. We can begin making wrong decisions or forming wrong opinions which in turn can affect our whole life

READ Hebrews 4:12

QUESTIONS FOR INTERACTION

1. Why is it so important to read the Bible each day?
2. What prevents you from doing so?

3. Many people read the Bible using a plan that takes them through it in one year. Have you considered doing this?

4. Has God ever spoken to you as you have read the Bible? If so, how?

CONSIDER THIS

When we give time to reading the Word of God daily then He can speak through it and show us the right path to walk on in our life. It will convict us of sin and show us how to receive God's blessings as we obey Him. It will speak into every aspect of our life and in the same way as a sword can pierce our flesh so also will the Word of God enter into every part of our being. It will bring to the light all of our thoughts and will be a lamp to our feet and a light to our path. It will give us understanding and wisdom to help us make right decisions every day.

IT'S TIME FOR PRAYER

MY RESPONSE AS A PROMISE KEEPER

I will make it a priority in my life to read the Bible daily.

WRAP UP

God has provided a way through His Word by which He can speak to us and guide us to make the right decisions.
